Vomiting/Diarrhea

How long has your pet been having these symptoms?

How many times has your pet vomited and/or had diarrhea?

What is the volume of the vomit/diarrhea?

What does the vomit/stool look like? (Mucus, blood, worms, watery etc?)

Has there been any change in the normal diet?

Has your pet been given any new treats or people food?

Has your pet been destructive at home? (chewed up a blanket, gone through the trash ect.)

What medications does your pet take daily? Monthly?

How is your pet's appetite at home?

Is your pet drinking water normally?

Is your pet lethargic?

Do you give monthly heartworm prevention at home? If yes, do you give it year round or seasonally? What is the name of the product that you give?
